Section number: II.2.4

Instead of:

Description of the procurement:

The Services to be procured under the proposed DPS are likely to be wide and varied and cover all aspects of construction, estates and property professional services to include but not limited to:

- Construction related multi-disciplinary services,
- Construction project management services
- Highways and transport services
- Public realm and landscape services
- Architectural design services,
- Mechanical and electrical services
- Civil and structural engineering services,
- Quantity surveying services,
- Building surveying services,
- Construction health and safety advisor,
- BREEAM Assessors,
- Specialist environmental services,
- Asbestos advisory services and surveys,

- Site supervision /clerk of works for construction projects,
- Environmental, sustainability and waste services,
- Fire services,
- General advice on all aspects of estate, property and housing management services
- Ancillary services (e.g. office support services, artificial and natural lighting engineering services for buildings, transport systems consultancy services, energy and related services, urban planning services).

The DPS can be filtered by Service Templates geographical region and Value Banding. LCP Members may therefore invite all the Suppliers within a particular Service Category Requirement. This option shall be set out within Sproc.Net at the time of call-off.

Selection of Suppliers will also be subject to a Value Banding assignment that will be applied and managed during the DPS by the LCP. Further details are provided within the procurement documents.

The Supplier Agreement includes a set of terms and conditions that may be utilised by the parties for subsequent call-offs under the DPS (albeit contracting authorities are permitted to substitute those terms and conditions with their own preferred forms subject to their on-going compliance with the restricted procedure under which this DPS is being procured).

The DPS in itself is therefore not a contract; contracts are only formed when Services are called-off under the DPS. The tender documents issued by contracting authorities for specific call-offs under this DPS will fully confirm the specific terms and conditions applicable for the execution of the Services.

Suppliers should also note that this DPS places no obligation on its approved users to procure any construction estates and property professional services during the term of this DPS.

LCP is working in association with Adam HTT Limited to develop and maintain this DPS.

Suppliers should read this Contract Notice carefully and in full before submitting their application to join the DPS.
